

SPIRAL IMPINGEMENT FREEZER

Benefits

- Compact Size
- Less Space is required for installation.
- Uses double impingement technology.
- Fast freezing in minimal time.
- Less power consumption.

Overview

The spiral freezer that CFTECH provides helps the customer to plan the freezer in the minimum available space. It saves energy and follows the principle of double impingement. Spiral freezer ensures quick freezing and maintains the quality of the product with the least loss of liquid after thawing and the lowest freezing cost per kilogram with optimum weight yield.
